**Subject:** FW: Letter regarding former office building on Dico property  
Letter dated Jun 8, 2017 to IDNR.PDF

Ed,

Here is the message and letter I just sent to Alex Moon at IDNR. I thought you might want to reference it when you call Bill Ehm. We are evaluating a removal action to address the buildings which would not require a state match.

Any questions, let me know.

**Subject:** Letter regarding former office building on Dico property

Hi Alex,

Attached is a letter reflecting EPA's position with regard to demolition of the former office building. I hope this is helpful to the department in advancing progress toward redevelopment of the site. The original signed letter will follow in the mail.

In our efforts to advance progress on the contaminated buildings, we have prepared a waste determination memo that may be helpful to you in understanding EPA's view of the materials present in each of the contaminated buildings. I will forward that memo to you once it is finalized.

As mentioned on our call last week, we are evaluating the possible use of our CERCLA removal authorities to address the contaminated buildings. We will provide an update on our progress during our next call scheduled for June 15.
